I'm Subash, I studied both CMA inter and final in RR. I'm an average student upto college level. I never thought of clearing a professional course in my first attempt itself but they made it possible for me. Really really enjoyed the days in RR, their teaching techniques are very good and more conceptual, all the **faculties** are experts in their domain. I got a lot of good friends too (RR gives us every good friendly environment), those are most memorable days in my life.

Just stick to their timetable and plans and little hardwork is enough to become a professional.

♥ Lots of thank to RR.

I am glad to experience the wonderful teaching of the **faculties** of RR ACADEMY, NUNGAMBAKKAM. The way of teaching is really awesome and professional. The communication of students to the teachers are very good. I really loved taking weekly tests which the academy conducts as I am able to improve my skill as well as to point out where I go wrong. At this pathetic situation also they are trying their level best to create the future professionals.

Thank You

I did my entire CMA course at RR. They help students to pursue their dreams. Both academic and practical skills will be inculcated. They have best **faculties** who are professionally and practically experienced. They charge reasonable fees. Classes will be planned and scheduled well in advance and timely completion of portions allowing sufficient time for revision before exams. By far, one of the best institutes in producing large number of CMAs in a year. Join without any second thoughts. :)
